EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE CLAIMS:

Cancel claims 13-33.

2. This application is in condition for allowance except for the presence of claims 13-33 directed to an invention non-elected without traverse. Accordingly, claims 13-33 have been cancelled.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

Claims 1-12 are allowable over the Prior Art since the Prior Art fails to adequately teach or disclose all of the limitations claim 1, for example, particularly, each cleat having a lower portion, deformed within the aperture to have a frusto-conical shape mating with internal walls of the aperture, and an upper, inverted frusto-conical portion having a lower surface mating with an upper surface of the blade, and an upper shoulder, the upper shoulder extending upwardly from the lower surface of the upper portion and outwardly from a longitudinal axis of the cleat.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Randall Chin whose telephone number is (571) 272-1270. The examiner can normally be reached on Monday through Thursday and every other Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gladys Corcoran can be reached on (571) 272-1214. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
